Super Clean Plastic Cleaner

Super Clean plastic cleaner is a blend of mild solvents formulated to remove mold release agents, wax, grease, silicone, tar, bugs, the sticky stuff from the back of tape, and other contaminants from painted and unpainted plastic and metal surfaces.

Benefits:

- Removes solvent soluble contaminants from painted and unpainted plastic and metal.
- Easy to use. Just spray on and wipe off.
- Super Clean contains **no** petroleum products. Petroleum based cleaners can leave an oily film on the surface and cause adhesion problems.

Application:

- Clean first with soap and water to remove water soluble contaminants.
- Spray Super Clean directly on surface and wipe in one direction with a clean lint free cloth before Super Clean evaporates.
- Change wipes often to avoid recontaminating the surface.
- It may be necessary to repeat these steps a second time on heavily contaminated surfaces.

- Gallon and quart sizes may be poured into a spray bottle, into a spray gun, or poured straight from the container. Aerosol can is ready to use.

1000 Super Clean Plastic Cleaner

Dimensions: **1000-1**, 1 U.S. Gallon F-Style (3.785 liters)
6.5 in width x 4.1 in depth x 10.3 in height
(16.5cm x 10.4cm x 26.2cm)

1000-4, 1 U.S. Quart F-Style (946 ml)
4.5 in width x 2.5 in. depth x 7.4 in. height
(11.7cm x 6.1cm x 18.8)

1000-A, 19 fl. oz. (562 ml)
9.5 in height x 2.7 in diameter
24 cm x 7 cm

Weight: **1000-1** 7.15 lb (3.2 kg)

1000-4 2.06 lb (0.93 kg)

1000-A 1.20 lb (0.54 kg)
