Filler Prep Adhesion Promoter

Filler Prep adhesion promoter improves the adhesion of fillers on all plastics.

Benefits:

- Improves adhesion of fillers and helps prevent filler from “rolling up” on the edge when feathering.
- No need to identify plastic. Works on all plastics.
- Convenient dauber in cap makes application easy.
- Easy to use. Just wipe on and allow to flash dry.

Application:

- Clean first with soap and water to remove water soluble contaminants.
- Clean with Super Clean plastic cleaner (Part no. 1000) to remove mold release agents and other contaminants.
- Abrade with 80 grit or coarser.
- Brush on one wet coat of Filler Prep and allow to flash off.
- Mix and apply Filler.
