### Urethane Super Strip Bumper Stripper

Urethane Supper Strip Bumper Stripper is fast and effective for removing all refinish materials from urethane, TPO, and other plastic bumpers of plastic panels.

#### Benefits:

- Easy to use. Just spray on and wipe off.
- Resists attacking or swelling.
- Helps remove any refinish material.

#### Application:

- Apply in very heavy coats and allow 10 minutes for stripper to attack refinish materials. When the refinish materials begin to soften and wrinkle, use a squeegee or steel wool.
- Rinse with soap and water.
- Finish cleaning with 1000 Super Clean Plastic Cleaner.
- It may be necessary to repeat the steps for heavily refinished parts.

#### Precautions:

- Do not allow Super Stripper to work for more than 10 to 15 minutes.
- Super Strip is not designed to remove the baked-on OEM finish.
